RELIABILITY**

In two short months we have established ourselves in the public's confidence. Overwhelming proof of this came with the generous patronage accorded us during the holidays.

No house could have responded with more efficient or courteous service. The values offered were equally pleasing.

We now wish to direct your attention to our manufacturing department, where we make a specialty of restoring or remodeling old jewelry of all description.

This work is supervised by artists, and may be placed in our hands with utmost confidence. Designs will be submitted for approval without a thought of obligation on your part. Gold or silver wares are perfectly replated.

Our stocks of commercial goods comprise lines at the most moderate prices. We shall welcome your inspection of them.
